Windsor Recommends

This versatile blend is perfect year round for your next summer BBQ or even during the holidays for that special celebration. The 93% Syrah varietal composition makes this wine very food friendly.

The North Coast AVA has predictable weather patterns very similar to the Mediterranean. Warm, sunny days and cool, foggy nights allow for slow, even maturation, optimal flavor development and ideal sugar to acid balance. Specifically, the grapes in this red wine blend come from Windsor vineyards located in the rolling foothills just north of Ukiah.
