Windsor Recommends

This 2018 Chardonnay is a generous wine offering a variety of fruit flavors and textures. It is characterized by intense ripeness, crisp acidity and concentrated fruit flavors to accent any meal.

Virtually all great wine growing regions are situated by water, which has a moderating effect on climatic extremes. With approximately sixty miles of rugged Pacific coastline and the mighty Russian River winding its way inland, Sonoma County is blessed with mild, Mediterranean conditions: Warm, sunny days and cool, foggy nights which allow for slow, even maturation, optimal flavor development and ideal sugar to acid balance.
