Windsor Recommends

Our 2019 Rosé is a great food wine. It is a warm weather favorite but it also is delicious any time of year.

Sourced from prestigious vineyards throughout California. The 2019 growing season was a wet one with record rains throughout California. The summer season this year has been near perfect for growing with warm weather kicking off harvest about a week early. Flavors across the board were good. This vintage promises to be of excellent quality.
