This new world Pinot is a great pairing for turkey or slow roasted meat with fresh herbs. Pinot Noir and mushrooms are always a good match, especially truffles.

### About Sonoma

Hard to grow, easy to love! Pinot Noir is known for being sensitive, temperamental and challenging on the vine, but the supple, silky and aromatic flavors in the glass make it oh so worth it. Pinot Noir is one of the most food-friendly wines around. This wine is sourced from a variety of vineyards throughout the Sonoma Coast appellation, each chosen for their high-quality fruit, and the unique character they lend to this Pinot Noir.
